

Research Study

Researchers at Minot State University are conducting a study to examine the effects of expressive writing on family dynamics and sibling behaviors.

You are eligible to participate if you...

- 1) Are a typically developing individual who has a sibling with Autism, Down's syndrome, or Typical Development
- 2) Are between 11-17 years of age
- 3) Have the ability to write multiple sentences and paragraphs
- 4) Have a parent/legal guardian willing to participate
