

## Model Demos

\$189 ProloQuo2Go  
 \$199-\$399 iPod Touch

### *iPod Touch & Proloquo2Go*

- Provides a full-featured communication solution for people who have difficulty speaking
- Naturally sounding text-to-speech voices, up-to-date symbols, a default vocabulary of over 7,000 items, full expandability and extreme ease of use
- Perfect solution for anyone who cannot afford spending thousands of dollars on an ACC device and yet wants a solution that in terms of sheer communication power and ease of use rivals solutions typically priced over 10 times as high
- Parents appreciate the system because it is easy to program and makes their children "cool"
- Helping individuals with autism spectrum disorder (ASD), cerebral palsy, down syndrome, developmental disabilities, ALS, traumatic brain injury, aphasia, apraxia, and more.

Communication on the Go for iPhone, iPod touch and iPad

*One special education teacher through Model Demo reported:*

"The iPod has opened a whole new world for (her). It is just wonderful! Her progress with (Proloquo2Go) has just been amazing!"

*1 Daycare; and  
 3 Schools*

*Consisting of:*

*4 children with ASD;  
 5 parents; and  
 10 Professionals*

## ***Pulse Smart Pen***

The Pulse™ Smart Pen records and links audio to what you write, so you never miss a word.

"... was trying to figure out how it even kept track of the page number he was writing on. He said "no wonder they call it a smart pen". He took it to school today to use so we're both anxious to see how it records in all of his classes."  
-Parent

"The Smart Pen helped (him) out a lot. It's a very impressive little tool!"  
-Parent

### **DATA:**

Demo with a 15-year old adolescent with Asperger's Syndrome to use for finals week at school.

## ***The Transporters DVD***

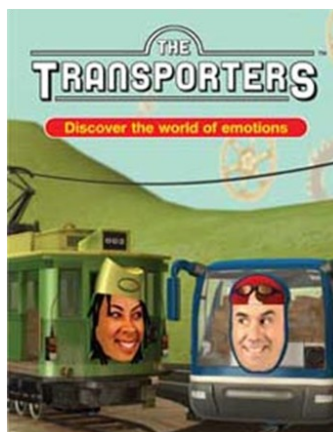

The Transporters is designed to be used with children aged 2 to 8. It consists of short videos and quizzes. The research into the effectiveness of the series was conducted on children aged between 4 and 8 years old.

- Emotional Vocabulary
- Familiar matching tasks
- Close generalization of skills
- Distant generalization to real human faces

### **DATA:**

- *In all tasks on which the children were tested, most caught up with their typically developing peers*
- *The results suggest that "The Transporters" DVD is an effective way to teach emotion recognition to children with ASD and that the learning generalizes to new faces and new situations.*
- *Children with ASD who did not watch the DVD remained below typically developing levels*
- *There were demos done with 3 children on the ASD Spectrum*

"...they did not want to pull away from the Transporters DVD! They watched it to and from therapy....He asked if we could keep it forever."
