Train the Trainer to Train the Staff in Therapeutic Intervention

This workshop is designed to provide participants with the skills, competencies, training strategies and techniques necessary to train other direct service staff in therapeutic intervention. It focuses on etiological and situational factors, cultural influences and historical perspectives of abuse.

It identifies factors and situations leading to violent and/or disruptive behaviors and examines positive steps to deal with these situations.

Confrontation avoidance is emphasized and therapeutic and physical intervention techniques and methods to resolve conflicts following the "least restrictive model" are encouraged and practiced.

WHO SHOULD ATTEND

This workshop is designed to train D.D. regional trainers, behavior specialists, direct service staff and other individuals to become trainers in Therapeutic Intervention.

The format of the workshop will include lecture, discussion, demonstration and practice of physical intervention techniques.

A certificate will be issued to those individuals who successfully complete the course. Attendance is required at both sessions for certification.
