

Understanding your Medicare Summary Notice (MSN)

If you have a Medicare-covered service, you receive a Medicare Summary Notice (MSN) every 3 months. The MSN shows all the services and supplies that providers and suppliers billed Medicare during that 3-month period. The MSN is not a bill, but you should read it carefully.

Do you need help understanding your claims and reading your MSN? ND SMP is working with volunteers and Senior Centers to offer a free service to Medicare beneficiaries who need help answering billing and reimbursement questions.

Where: _____

When: _____

Time: _____

No appointment necessary. Bring your MSN and questions with you when you visit the Center!
